

## PSE.NET Technique Tutorial

Adding captions is part of a solution to managing your photos. **Step by Step:**

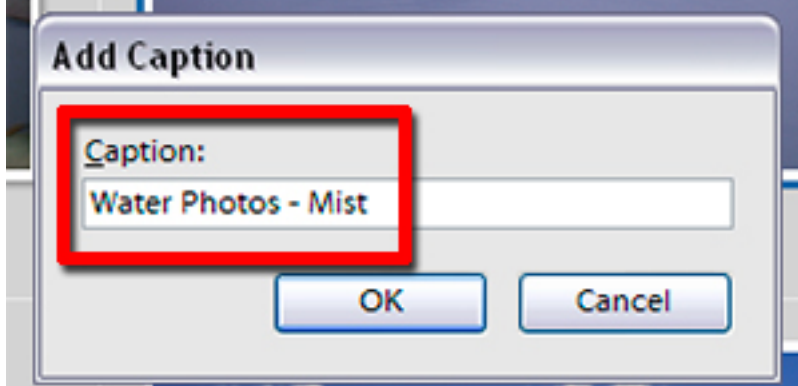

Use these steps to add captions to your photos.

01 Multi-select images in the Photo Browser workspace and then choose the Add Caption to Selected Items option from the right-click menu.

Click the **Replace Existing Captions** checkbox to replace the captions of the selected items with the new caption.

Click the **OK** button to add the caption to the selected items. The caption will be added to the end of the existing caption, separated by a space. For example, if the existing caption is "Water Photos", the new caption will be "Water Photos - Mist".
