

PSE.NET Technique Tutorial

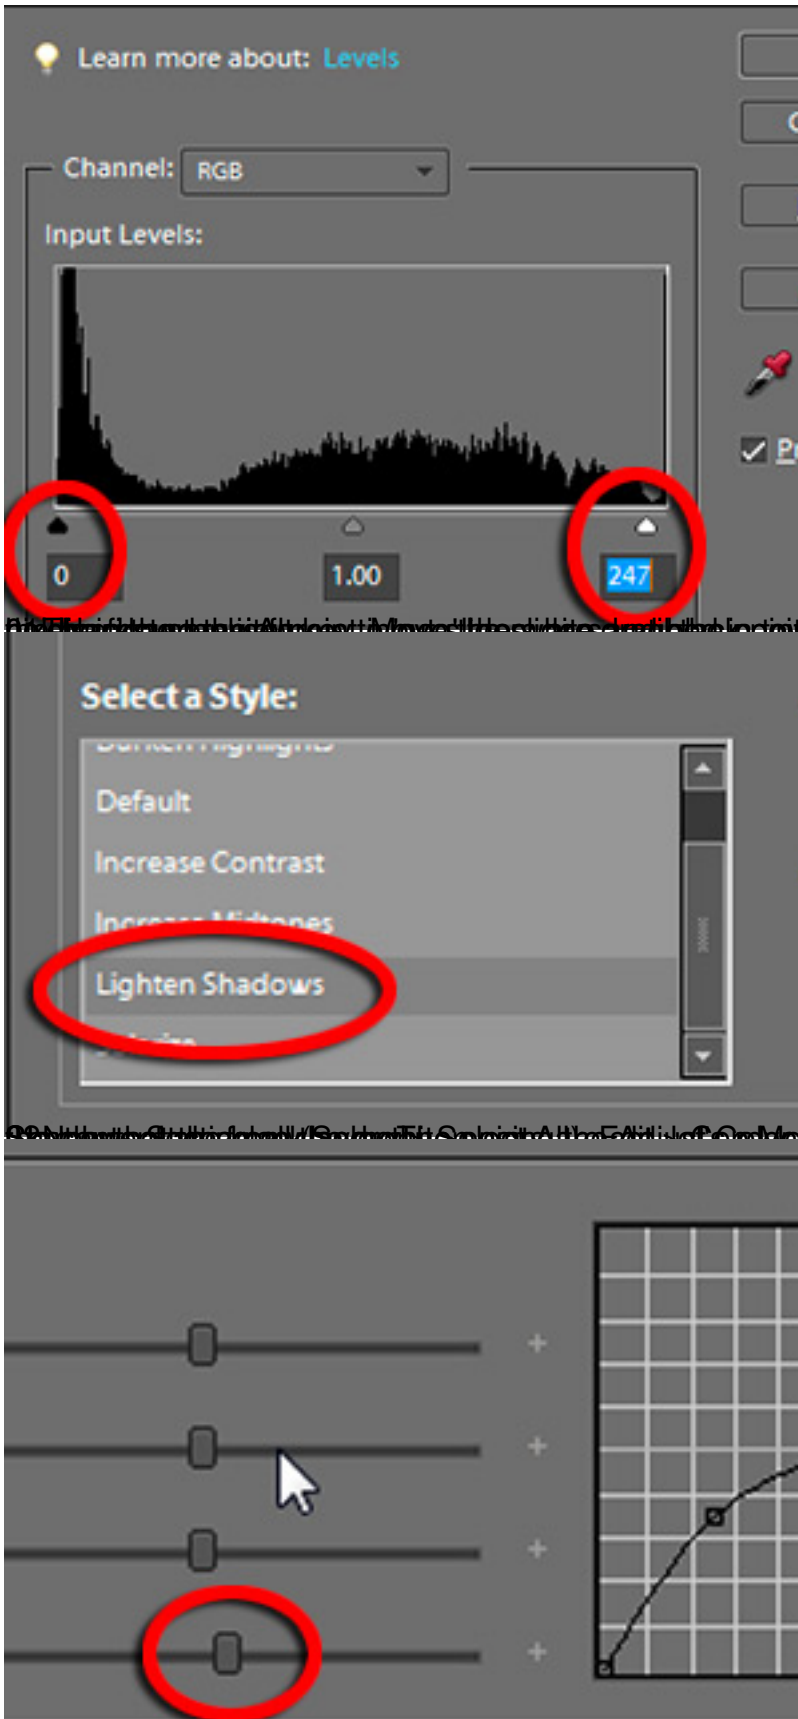

Step by Step:

Use these steps to increase the shadow detail in your old photos.

Adjusting shadow tones

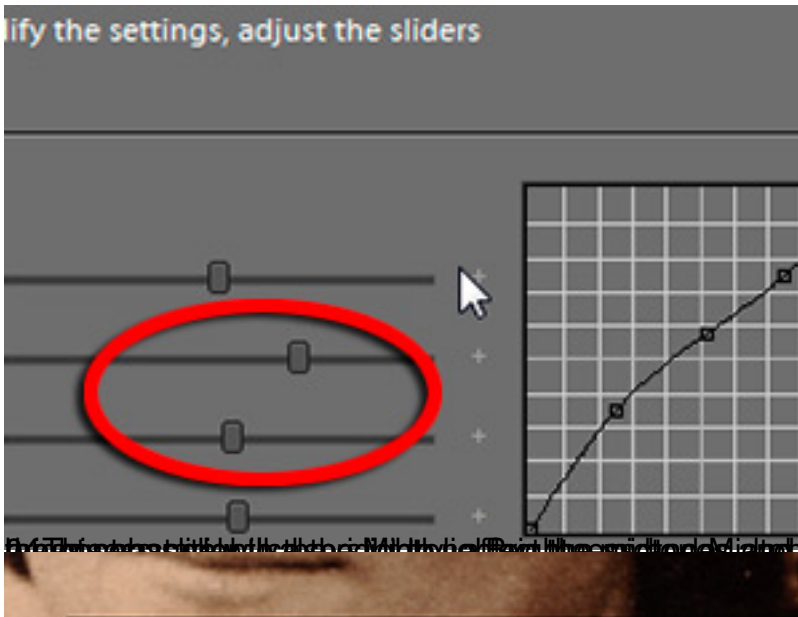

Adjusting the Levels adjustment panel while

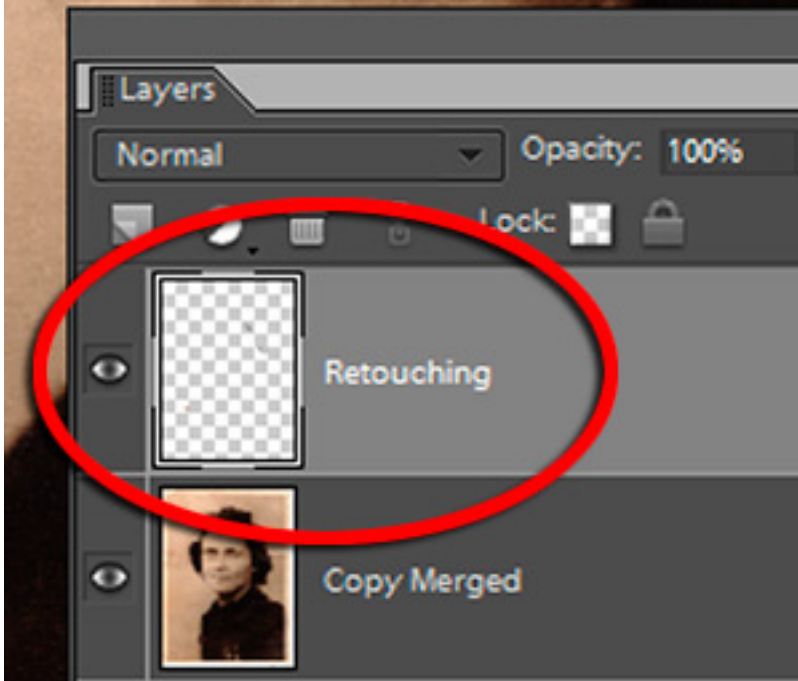

adjusting the 'Lighten Shadows' style.

Adjusting the 'Shadows' slider to the right. This will lighten the shadows and

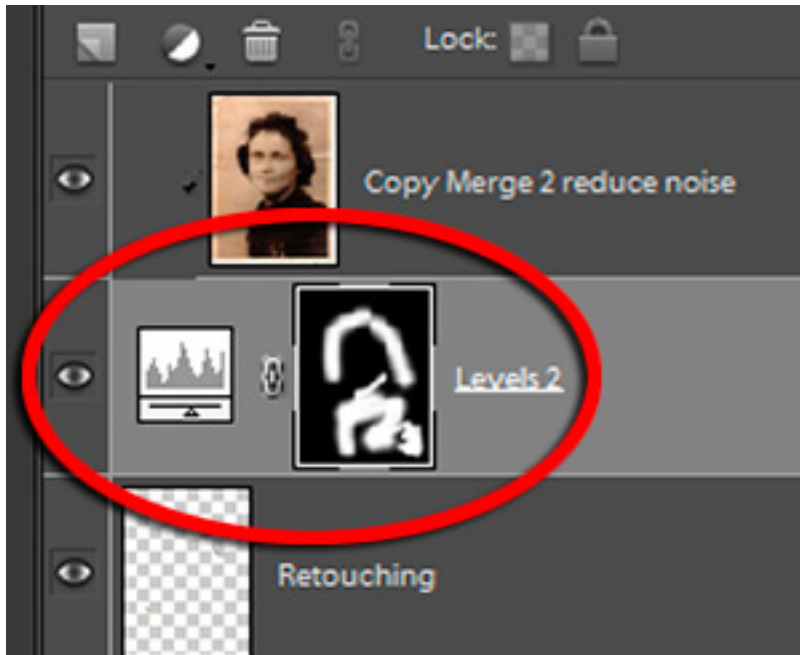

Adjusting shadow tones

By default, the sliders are set to the center. The 'Shadows' slider is the one on the left.

Layers (the 'Retouching' layer) is located below the 'Copy Merged' layer. The 'Retouching' layer is currently empty.
